Welcome to Our World

KronoOriginal® flooring offers a century of commitment to quality and customer service. In our collections, you will find an array of decors that feature realistic textures and show off the natural look of real wood.

We have perfected our laminate wood flooring to be waterproof, durable, spill and stain resistant to bring an added comfort to your home.

Benefits at a Glance

Kronospan Guarantee

All KronoOriginal® floors go through a series of rigorous tests in order to comply with international quality standards, which is why we offer a lifetime residential warranty with our Huron and Pacific collections.

Eco-Friendly

All KronoOriginal® floors are environmentally friendly and made with over 90% wood that is sourced from sustainably managed forests.

Waterproof

The Huron and Pacific collections offer waterproof surface protection with a hydrophobic coating that limits any water permeation.

Abrasion Class AC4

The AC4 rating means superior protection from every day wear and tear from general traffic.

Realistic Texture

The high quality wood structures uses elegant contrasting and enhanced multi-gloss effects to emphasize the depth of the wood with matte and gloss elements that reflect light differently.

Scratch & Stain Resistant

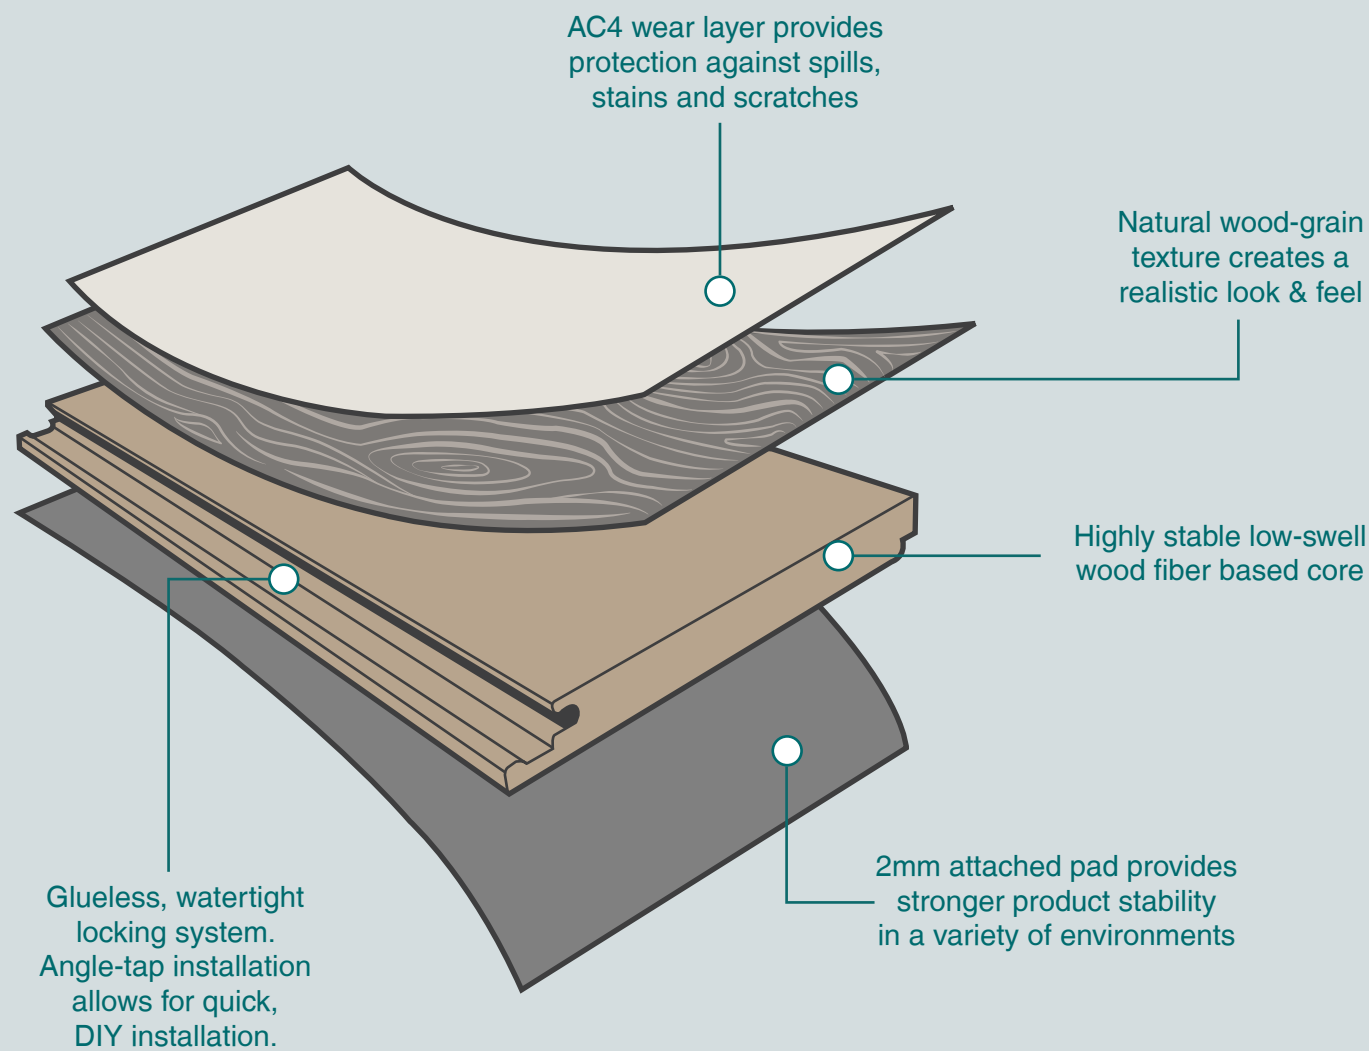

This durable surface will protect your floors against micro-scratches that can occur through heavy use.

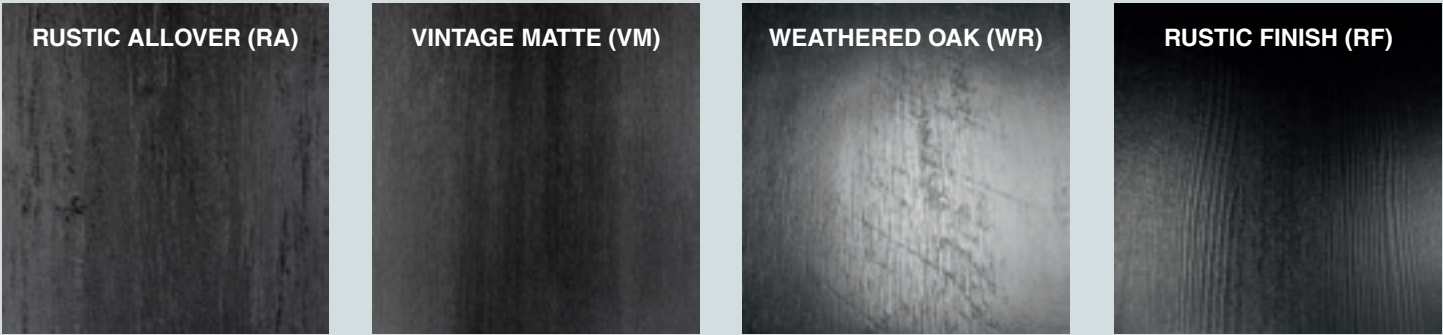

Easy Installation

The KronoOriginal® installation technology makes installation as easy and hassle free as possible. The advanced installation system creates a waterproof surface in a fraction of the time and can be installed by anyone.
